

## **Citizen Assisted Monitoring Program (CAMP)**

### **Metropolitan Council**

Little Long Lake was selected for monitoring through CAMP in 2012; however, the Commission was unable to get a volunteer to monitor this lake. Since Met Council considers Little Long Lake to be a priority lake, their Staff performed the monitoring on this lake in 2012. The 2012 CAMP Report contains the results of the monitoring conducted on all the lakes in the 2012 program. The report will be available mid-summer 2013 and can be requested from Brian *Johnson of the Metropolitan Council*, [brian.johnson@metc.state.mn.us](mailto:brian.johnson@metc.state.mn.us).
